

# **SECONDARY END OF TERM REPORT 2023-2024**

**Marek Ali**

**ID: #100328**

**Year 9**

## **Art**

**6**

Marek Ali displays a natural inclination towards artistic expression, often showcasing creativity and imagination in his artwork. While his skills are still developing, Marek demonstrates a willingness to experiment with various techniques and styles. With continued practice and guidance, Marek has the potential to refine his artistic talents and produce more polished compositions.

## **Computing**

**3**

Marek Ali faces challenges in computational thinking and coding tasks, often struggling to grasp fundamental concepts. His artistic talents may offer a different perspective in problem-solving, but he requires additional support and guidance to improve his proficiency in computing.

## **Drama**

**5**

Marek Ali shows some potential in drama, particularly in roles that allow for expressive and emotive performances. While he may struggle with memorization and stage presence at times, Marek's artistic sensibilities add depth to his character portrayals. With dedicated practice and guidance, Marek has the opportunity to further develop his acting skills.

## **English**

**3**

Marek Ali's proficiency in English is limited, with struggles evident in both understanding literary concepts and expressing ideas in written form. His artistic perspective may offer unique insights, but Marek requires significant support and intervention to strengthen his language skills and improve his performance in English studies.

## **Humanities**

**4**

Marek Ali demonstrates a basic understanding of humanities subjects, and his artistic sensibilities may offer alternative perspectives on historical and societal issues. With focused effort and guidance, Marek has the potential to enhance his understanding and analysis of humanities topics.

## **Mathematics**

**2**

Marek Ali faces challenges in mathematical reasoning and problem-solving, often struggling to grasp fundamental concepts. While his artistic abilities may offer a different approach to problem-solving, Marek requires ongoing support and reinforcement to improve his mathematical skills.

## **Music**

**8**

Marek Ali's artistic inclinations may extend to music, although he may struggle with technical proficiency compared to more experienced musicians. With consistent practice and guidance, Marek has the opportunity to develop his musical talents further and improve his performance in music studies.

## **Physical Education**

**7**

Marek Ali excels in Physical Education, demonstrating exceptional athleticism and enthusiasm for various physical activities. His natural talent and dedication to fitness shine through in his performance, earning him recognition among peers and instructors alike. Marek's strong abilities in PE serve as a testament to his commitment to maintaining a healthy lifestyle and active participation in sports and exercise.

# Science

**3**

Marek Ali demonstrates a basic understanding of scientific concepts but may struggle with applying them in practical experiments. His artistic perspective may offer creative approaches to scientific inquiry, but Marek requires targeted support and encouragement to improve his scientific skills and performance in science subjects.
